- Committee Member, Langley Cerovich, *Health Frailty Indices* May 2025
- Committee Member, Sreenidhi Atluri, *Hospital Quality and Price Transparency Laws* May 2025

Dissertation Committees, Baylor University

- Committee Member, Michelle Asiedu-Danso, PhD Public Health (Epidemiology; Health Economics Minor) Current

Research Assistants, Baylor University

- Osei Agyemang, Graduate, Administrative data cleaning and machine learning dataset assembly (Python) Spring 2026
- Sreenidhi Atluri, Undergraduate, Exploring biases in AI 2024–2025
- Marc Fachiol, Undergraduate, Mergers and acquisitions in healthcare 2024–2025
- Coco Sun, Graduate, Examining the role of competency in jails Summer 2023
- William Burns, Undergraduate, Using machine learning to identify potential determinants of self-harm in jails 2022–2023

Other Service

- Served as evaluator on the Oral Board Exams for the MBA pre-clinical track students at Baylor University Summer 2024

Referee Service

Nature Human Behaviour, American Journal of Health Economics, The Journal of Law and Economics, Social Science Research, *Health Affairs*

Grants

- Subaward Investigator, *Improving Officer and Civilian Health through Macro-level Changes in North Texas*, National Institutes of Health (3OT2OD035659), PI: Linda Fulmer, \$60,000 2026–2027

Honors and Awards

Outstanding Dissertation Award for the Social Sciences, Baylor University May 2022
 Presidential Fellowship, Baylor University 2016–2021
 Robbins Institute of Health Policy & Leadership Scholarship, Baylor University 2016–2021
 Beta Gamma Sigma Honor Society

Research Experience

Graduate Research Assistant, Baylor University 2016–2022

- Dissertation: Examining health care provider case and setting allocation shifts
- Advisor: Michael Richards

Research Consultant 2017–present

Clients include:

- *Texas Office of the Attorney General*: I served as an expert witness in a litigation case, providing an expert report with economic and statistical analyses, September 2025 to April 2026.
- *Texas Department of Criminal Justice*: I serve as a consulting expert providing economic and statistical analyses.
- *Humana*: I served as a member of an outside research team with faculty from Vanderbilt, Texas A&M, and Baylor to advise Humana. I aided in design of the project, was responsible for the data analytics, and aided in preparing/presenting the results to the stakeholders over the course of two semesters.
- *American Vein and Lymphatic Society*: I coauthored a research letter evaluating a potential change in Medicare reimbursement and the corresponding costs.
- *Team Sports Marketing*: I created programs in Stata and R to translate survey data into descriptive key performance indicators of Team Sports Marketing's partner brands (and competitors) for professional sports teams. Clients included the Green Bay Packers, the New Orleans Saints, and the New Orleans Pelicans.

Graduate Research Intern, Mayo Clinic

Summer 2019

- I worked on a multidisciplinary team comprised of physicians, economists, health services researchers, and statisticians to analyze the mortality effects of drug-coated stents and balloons for above the knee surgeries for Mayo Clinic patients. I also assisted with design and proposal for a multiple medication adherence study utilizing Optum's claims data.

Graduate Research Intern, Baylor Scott and White

Summers 2017, 2018

- I researched supply and demand factors in the Dallas-Fort Worth metroplex for Baylor Scott and White and prepared a short report with my findings.

Senior Consultant, The Perryman Group

2015–2016

Staff Consultant, The Perryman Group

2011–2015

- I provided economic, financial, and statistical analyses; created damages models; and coauthored text to aid in preparing economic damages, lost profits, and antitrust reports in civil litigation cases for American Airlines, Google, Apple, and others.
- I served as project manager on cases and was promoted based on merit to Senior Consultant in 2015.
